## Alternatives to Fossil Fuels: Solar Cells, Hydrogen Fuel Cells and Beyond

by Edwin J "Ted" Heilweil, Ph.D

Optical Technology Division, Physics Laboratory  
National Institute of Standards and Technology

The Rockville Science Center, in collaboration with the Rockville Consortium for Science and Sigma Xi, is sponsoring a Science Café series for our community to explore the latest ideas in science and technology outside of a traditional academic context.

Admission is free. Food and drink can be purchased from the restaurant. Please join us and participate in a spirited discussion following a short presentation by our scientific expert.

For more information visit our website at [www.RockvilleScienceCenter.org](http://www.RockvilleScienceCenter.org)

### What is the Rockville Science Center?

The Rockville Science Center, Inc., a 501 © (3) organization, intends to develop a vibrant facility that offers an educational forum for citizens of all ages to explore the wonders of science that underlie everyday life and that relate to the scientific community of our region.
